Turning Code into web development: My CodSoft Internship Journey

I am thrilled to share a significant milestone from my CodSoft internship journey - the creation of a fully functional calculator using the powerful trio of HTML, CSS, and JavaScript!

Over the past one and half month, i've been immersed in a world of coding, problem-solving, and innovation. This project was a culmination of countless hours of hard work, dedication, and a burning passion for web development.

This experience has not only sharpened my technical skills but also taught me the importance of teamwork, communication, and problem-solving in the software development industry.
